SUMMARY

Frontend Engineer with 6 years of experience building product-oriented web applications, marketplace systems, admin dashboards, and scalable frontend infrastructure.

Experienced with React, Next.js, TypeScript, microfrontend architecture, API-driven applications, reusable UI systems, and modern frontend workflows within distributed product teams.

Focused on frontend architecture, maintainable frontend systems, performance optimization, and scalable product development.

TECH SKILLS

Frontend	React, Next.js, TypeScript, JavaScript, HTML5, CSS3 / SCSS, Astro
Architecture	Microfrontends, Module Federation, Shared UI Systems, API-Driven Architecture
State	Redux Toolkit, RTK Query, Zustand, Context API
UI	Tailwind CSS, MUI, Styled Components, Storybook, Responsive Design
CMS	WordPress, Gutenberg, Strapi, Directus, Headless CMS
Integrations	REST API, GraphQL, WebSockets, Analytics, A/B Testing
Tooling	Webpack, Vite, Git, npm, yarn
Workflow	Agile / Scrum, Jira, Code Review, Cross-functional Collaboration

EXPERIENCE

MOTORSPORT NETWORK — Full-time Frontend Developer | 2022 — 2026

- Worked on customer-facing media platform workflows and responsive frontend implementation
- Participated in frontend redesign initiatives and content-driven platform improvements
- Integrated comments system workflows and advertising-related frontend functionality
- Improved accessibility and responsive UI behavior across platform sections

DREAMHOST — Contract Frontend Engineer | 2024 — 2025

- Worked on AI-powered website builder and AI content generation workflows
- Developed scalable dashboard systems and microfrontend-based frontend architecture

- Built reusable Storybook UI components and modular frontend systems
- Integrated API-driven frontend workflows and operational platform modules

ZAGROZA AGENCY — Contract

Frontend Developer | 2022—2023

- Developed SEO-focused Next.js applications with Directus and Strapi integrations
- Built reusable frontend systems and responsive UI layouts
- Worked on content-driven frontend architecture and CMS-based workflows
- Participated in delivery of multiple production-ready frontend applications

EARLY PROJECTS & FREELANCE

Frontend Developer | 2020—2022

- Developed responsive customer-facing websites and e-commerce storefronts
- Worked on frontend integrations and reusable UI implementation
- Built scalable catalog pages and responsive layouts for commercial platforms
- Improved cross-browser compatibility and responsive storefront workflows

SELECTED PROJECTS

MOTOR1.COM

Impact

- 20+ platform sections supported
- 10+ regional editions integrated
- High-traffic media workflows supported
- Improved responsive UI consistency

Stack: JavaScript • HTML5 • SCSS • PHP • REST API • SEO

MOTORSPORT.COM

Impact

- 10+ content-driven platform sections supported
- Multi-region frontend workflows integrated
- Responsive UI consistency improved
- High-traffic media workflows maintained

Stack: JavaScript • HTML5 • SCSS • PHP • REST API • SEO

DREAMHOST

Impact

- 300+ users in first 24h
- 0.2–0.4s dashboard module loading time
- 8+ reusable frontend modules created
- 40+ Storybook UI components implemented

Stack: React • TypeScript • Microfrontends • Storybook • Redux Toolkit

MOXICART

Impact

- Microfrontend infrastructure implemented
- 10+ reusable Gutenberg modules integrated
- Shared UI architecture established
- Cross-application reusable workflows supported

Stack: React • TypeScript • Module Federation • Gutenberg • Webpack

PLAYCARRY

Impact

- Frontend architecture designed from scratch
- 2 platform systems supported
- Reusable UI system implemented
- Scalable admin workflows established

Stack: Next.js • React • TypeScript • Redux Toolkit • REST API

EURATECHNOLOGIES

Impact

- Directus CMS workflows integrated
- Multiple dynamic content sections supported
- Responsive corporate platform implemented
- Reusable frontend structure established

Stack: Next.js • React • TypeScript • Directus • GraphQL

ACUMEN HANDYMAN

Impact

- Real-time frontend workflows implemented
- Strapi-driven admin workflows integrated
- Reusable frontend structure established
- Responsive marketplace platform implemented

Stack: Next.js • React • TypeScript • Strapi • WebSockets

TEPLOPRO

Impact

- 1000+ catalog products supported
- Large-scale storefront workflows implemented
- Responsive storefront optimization completed
- SEO-focused catalog structure improved

Stack: HTML5 • SCSS • JavaScript • jQuery • WordPress

DOMAIN EXPERIENCE

- Media Platforms — 4 years
- SaaS Platforms — 2 years
- E-commerce / Marketplace — 2 years
- Hosting Platforms — 1 year
- Headless CMS / Content Platforms — 2 years
- Marketing & Landing Platforms — 2 years
